

## The Glebe

Single storey rear extension, internal remodelling and conversion from a garage into a habitable room.

Client: Private

Construction value: £100,000,

Completion: 2015

Size: 50 m<sup>2</sup>

This rear extension opened up the existing kitchen to create a large open kitchen/dining room and the existing utility room was widened to suit the way the family use their home. The garage was converted into a snug for the client's teenage daughters to relax in and do their homework.

Services included full service from brief, Planning approval, Building Regulations, Construction drawings and tender documents to completion on site and interior design of bespoke joinery items to complete their new home.
